Summary

Front-end developer with 6 months of experience using React, JavaScript, and Redux to build all aspects of the user experience and user interface for client-facing landing pages. Familiar in using Bootstrap and CSS to build e-commerce sites. My hands-on work experience has allowed me to hone the development of UI updates and debugging abilities.

Personal Projects

E-commerce Web Application

- Develop a proshop ecommerce using React Redux with full-featured shopping cart, product reviews and ratings along with PayPal/credit card integration.
- Functionalities like product features review, search products, update user profile, view order details as well as track them. Standard checkout process (shipping, payment method, etc.) to order products.
- Handled product management using admin account. Admin can view registered user details and their orders through order details page. Mark order as delivered and can add new products through database seeder scripts.
- Custom middleware to protect routes. Implement authorization using JWT tokens.

Music Player Frontend

- Build a custom frontend interface for music player. Styled using traditional CSS, without using any UI library. Implement major aspects of styling to meet UI expectations from users.

Portfolio Website

- Responsive personal portfolio to showcase my recent work. Build using React and standard CSS practices (CSS variables, grid layout) and CTA.

Skills

Frontend: React | JavaScript | Redux | Redux-Toolkit | Bootstrap | CSS

Backend: Node.js | Express.js | MongoDB | Rest API | Firebase | Java

Education

Bachelors in Computer Engineering, **Sandip Institute of Technology and Research Centre, Nashik**.	July 2013 - June 2018 60%	
H.S.C **Maratha Vidhya Prasarak Samaj College, Nandgaon.**	June 2011 - June 2013 65%	
S.S.C **Gautam Public School, Kopargaon.**	2011 88.91%	

Certificates:

Frontend web development (02/2022)

React JavaScript (06/2022)

Backend web development (04/2022)
